Your Honors - I am deeply concerned about the future of this Great Nation. I see the big picture and worry about the future of our children and grandchildren. They deserve better. Allowing Wal-Mart to create a bank that is not regulated identically to other banks is just mindboggling and insane. If this happens, I see is that we (middle-class citizens and proud Americans) will definitely become slaves or surfs to big business/corporations. This move will put another nail in America's coffin.

Since the bankruptcy bill passed, medical bills are forcing bankruptcies & putting people on the street - - Good middle class Americans that worked hard, made an honest living and created their dream. Allowing a Wal-Mart bank is like slowly throwing gasoline on a fire. The domino effect of this action will seal the fate of this great nation's people. Our economy is outsourced, insourced and our jobs are dissappearing at a phenonominal rate.

Big business is ruining this country. I thought my government was suppose to protect the consumer from monopolies. I'll pray that you weigh the impact of allowing the Bank of Wal-mart to further ruin this country, and that you will make the right decision for the good of the country and not sell out to big business.

God bless.

Beth Martinez
